

re: new FCC faxing rules,that will greatly affect our office.we stand in strong protest against this "bureaucratic overkill".medical offices such as ours already have an overwhelming amount of new regulations to deal with, and with doctor reimbursements getting lower every year,who can afford to hire the extra employee to handle all the new requirements the FCC is demanding?? PLEASE, get reasonable-when will this all end?? please let us know who else we can contact in protest to this rediculous rule. thank you in advance,
Dr.Bill and Kristi Warnekros
